

(f) This chapter shall not be construed to limit or restrict in any way the right of a licensed practitioner of a health care profession regulated under this title from performing services within the scope of his or her professional practice.

(g) Nothing in subsection (a) of this section shall prevent an unlicensed person from engaging in auriculotherapy, an unregulated practice wherein needles are inserted into the external human ear, provided such person:

(1) has appropriate training in clean needle technique;

(2) employs sterile, single-use needles, without reuse;

(3) does not purport to treat any disease, disorder, infirmity, or affliction;

(4) does not use any letters, words, or insignia indicating or implying that the person is an acupuncturist; and

(5) makes no statement implying that his or her practice of auriculotherapy is licensed, certified, or otherwise overseen by the State.

(h) The Director, with cooperation of the relevant professional regulatory boards, shall monitor and evaluate whether nonacupuncturists employing acupuncture as a therapeutic modality are doing so safely, within their scopes of practice, and in a manner consistent with the public health, safety, and welfare.
